'Go' inspires you to explore the world freely. **Goeek** handles the details, allowing you to travel stress-free and discover new places effortlessly while enhancing your experiences with adventures.

Goeek

'Geek' signifies someone who seeks knowledge through exploration and challenges. With **Goeek**, there's no need to manually book flights, hotels, or adventures—everything is seamlessly managed for you.

Main Color Palette

Primary Color

Usage: This deep blue can be used for your headers, buttons, and primary actions in the app. It can represent trust and professionalism.
Where to use: Navigation bar, primary call-to-action buttons, key highlights, and icons.

Secondary Color

Usage: This lighter blue is perfect for secondary buttons, hover effects, and background highlights. It complements the primary color while creating a sense of openness and friendliness.
Where to use: Secondary buttons, accent lines, form inputs, and hover states for interactive elements.
